1. Aims

Schools are required under the Equality Act 2010 to have an accessibility plan. The purpose of the plan is to:

- Increase the extent to which disabled pupils can participate in the curriculum
- Improve the physical environment of the school to enable disabled pupils to take better advantage of education, benefits, facilities and services provided
- Improve the availability of accessible information to disabled pupils

Our school aims to treat all its pupils fairly and with respect. This involves providing access and opportunities for all pupils without discrimination of any kind.

At Stanborough Secondary we are *committed* to providing a fully accessible environment which values and includes all students, staff, parents and visitors regardless of their education, physical, sensory, social, spiritual, emotional and cultural needs. We are committed to challenging negative attitudes about disability and accessibility and to developing a culture of awareness, tolerance, and inclusion.

The plan will be made available online on the school website, and paper copies are available upon request.

Our school is also committed to ensuring staff are trained in equality issues with reference to the Equality Act 2010, including understanding disability issues. The school supports any available partnerships to develop and implement the plan.

The British Union Conference provides training on issues relating to improving access to the curriculum and understanding issues relating to the Equality Act 2010.

Our school's complaints procedure covers the accessibility plan. If you have any concerns relating to accessibility in school, this procedure sets out the process for raising these concerns.

We have included a range of stakeholders in the development of this accessibility plan, including parents, staff and the governing board of the school.

2. Legislation and guidance

This document meets the requirements of [schedule 10 of the Equality Act 2010](#) and the Department for Education (DfE) [guidance for schools on the Equality Act 2010](#).

The Equality Act 2010 defines an individual as disabled if he or she has a physical or mental impairment that has a 'substantial' and 'long-term' adverse effect on his or her ability to undertake normal day to day activities. The building and site mostly complies with the requirements of the Equalities Act 2010.

Under the [Special Educational Needs and Disability \(SEND\) Code of Practice](#), 'long-term' is defined as 'a year or more' and 'substantial' is defined as 'more than minor or trivial'. The definition includes sensory impairments such as those affecting sight or hearing, and long-term health conditions such as asthma, diabetes, epilepsy and cancer.

Schools are required to make 'reasonable adjustments' for pupils with disabilities under the Equality Act 2010, to alleviate any substantial disadvantage that a disabled pupil faces in comparison with non-disabled pupils. This can include, for example, the provision of an auxiliary aid or adjustments to premises. This policy complies with our funding agreement and articles of association.

This Accessibility Plan contains relevant actions to:

- Increase access to the **curriculum** for all pupils, ensuring those with a disability are as equally prepared for life as are the able-bodied pupils. This covers teaching and learning and the wider curriculum of the school. It also covers the provision of specialist aids and equipment, which may assist these pupils in accessing the curriculum.
- Improve access to the **physical environment** of the school, adding specialist facilities as necessary. This covers improvements to the physical environment of the school and physical aids to access education.

Improve the delivery of **information** to pupils, staff, parents and visitors with disabilities. Examples might include handouts, timetables, textbooks and information about the school and school events. The information should be made available in various preferred formats within a reasonable timeframe.

3. Action plan

This action plan sets out the aims of our accessibility plan in accordance with the Equality Act 2010.

Improving Curriculum Access

Stanborough School have a whole school approach to the provision of SEND. The school endeavours to provide a learning environment which allows all pupils to feel safe, secure and valued. Teaching staff set high expectations and encourage independence, providing all pupils with the opportunity to experience success. Teachers must take into account potential barriers to learning and make provisions where necessary to support pupils.

Curriculum planning and assessment for pupils with SEND must take into account the type and extent of the difficulty experienced by the pupil. Stanborough Secondary School's SEND Policy details the processes and provisions available. It covers all areas of SEND as per the SEND Code of Practice (2015). Effective strategies and resources can be found in the SEND policy and Passports of the individual pupil. Please refer to this policy for further advice and guidance on the school's support of pupils with SEND.

Wider Curriculum

Stanborough Secondary provides a wide range of extra-curricular clubs, activities and visits. Those organising such activities must plan for and support the individual needs of pupils who attend. Where appropriate, the school makes reasonable adjustments to meet the needs of the pupil(s) during activities and visits.

Physical Environment

At present, our facilities for people with disabilities are subject to limitations, but we will do all that is reasonable to ensure the school's culture, policies and procedures are made accessible to pupils, parents and visitors who have disabilities. We will fulfil our legal and moral responsibilities in order to accommodate the needs of applicants, pupils, parents and visitors who have disabilities which, after reasonable adjustments, we can cater for adequately.

We will consider accessibility needs and requirements during major refurbishment programs or as part of any specific individual needs or requirements should they arise. Nevertheless, where possible, the school will seek to make reasonable adjustments where needed, through classroom and timetable changes to provide access to pupils with SEND.
